

MODEL 200-S

## *Warning Sign*

The 200-S warning sign is an ideal means to inform drivers that a one-way lane condition exists and that driving the wrong direction will result in severe tire damage. Ideal for parking garages, toll booths, industrial sites or any traffic application utilizing traffic control spikes. Always use a warning sign in applications using traffic controllers.

- Double-faced illuminated sign
- Measures 24" X 24"
- Photo cell control turns sign on at dusk and off at dawn
- Flood light illuminates Traffic Controller at night
- Keyed on/off switch
- Easy to install
- Mounts on 3-1/2" O.D. post (Not included)
- Mounting post available
- Specify entrance or exit lane when ordering
