

MODEL HG-4030

# Bar Code Guest Pass Printer

## BARCODE MACHINE READABLE ELECTRONIC HOTEL GUEST- PASS PRINTER Model HG-4030

Current parking control applications demand rugged, well built system components designed for years of reliable, trouble free operation. This is true regardless of climate, or number of duty cycles per day. Your parking applications need and deserve products that are engineered for a high degree of reliability, and require the flexibility to fit perfectly in a wide variety of system applications.

The **EPS** Barcode Hotel Guest Pass Printer utilizes proven and reliable non-contact thermal print technology to rapidly print the Issuing Ticket Machine Location, and Expiration Date & Time. The dispenser issues the ticket almost immediately upon activation, and in no case does this time exceed 2 seconds.

The **EPS** Barcode Hotel Guest Pass Printer uses inexpensive roll type, 4 or 7 mil thick, variable programmable length by 2.31" wide thermal tickets. Current Date & Time may be set and maintained remotely from an on-line CMC system CPU utilizing a simple RS-232 serial communications interface.

### **FEATURES:**

*Easy side access ticket roll loading.*

*Safe, low voltage operation*

*Print On the Fly BarcodeAutoRead*

*Internal batteries allow for long term operation without AC power.*

*Rugged rust-resistant zinc plated steel construction.*

*Built-In thermostatically controlled heaters*

*Large back-lit LCD displays Date & Time, and optional programmable message*

*Optional built-in intercom*

*On-Line or Off-Line Operation capable*

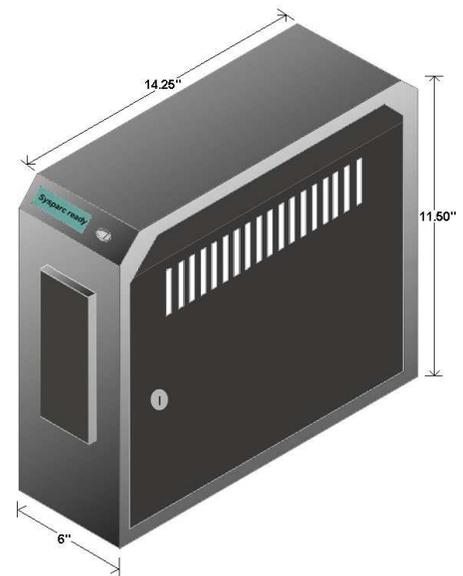

The tickets produced by the Model HG-4030 Barcode Hotel Guest Pass Printer are designed specifically to interface with the **EPS** Model EXP-1010 Exit Verifier, XV-2020 Exit Verifier, and/or XP-2020 Express Exit Pay Station.

- I. Purpose:  
The **EPS** Model HG-4030 Hotel Guest Pass Printer is a revenue control device that provides a "Print-On-The-Fly" Barcode machine-readable Hotel Guest Pass. This Hotel Guest Pass is readable by other **EPS** access/egress control devices (readers).
  
- II. Features & Functions:
  - A. The **EPS** Model HG-4030 Barcode Hotel Guest Pass Printer is designed to issue a printed date & time, barcode machine readable ticket to an authorized Hotel Guest parking patron.
  - B. The **EPS** HG-4030 is activated by a digital keypad and an "Issue" push-button.
  - C. The Hotel Guest Pass Printer issues one ticket to each Hotel Guest parking patron from a continuous ticket roll.
  - D. Each **EPS** ticket may be fully preprinted with general facility location and contract disclaimer data on one side.
  
- III. Physical Description:
  - A. The Ticket Dispenser's overall dimensions are 6" wide, by 14.25" deep, by 11.5" in height. It weighs 15 pounds without ticket roll.
  - B. The electrical power requirements for the Ticket Dispenser are 115VAC at 60Hz, or 220VAC at 50Hz. An internal UL approved step-down transformer converts this current into the 24VDC required to power all of the electrical circuitry and batteries contained within the device.
  - C. Each **EPS** Hotel Guest Pass Printer is equipped with an internal back-up battery to provide continued service even in the event of a general power outage.
  - D. The Hotel Guest Pass Printer contains a micro-processor controlled mechanism which includes a date/time clock calendar. This microprocessor may be programmed with its operating parameters remotely via available RS-232 connection.
  - E. The Hotel Guest Pass Printer is constructed of heavy duty rolled steel, which is zinc plated for rust inhibition, and then powder coated with sealing rust resistant paint. The standard color is white, but the device may be ordered with special paint colors.
  - F. Each ticket is cut from the roll with an automatic self-sharpening cutter.
  - G. Each ticket is printed at time of issue with the expiration date & time, issuing machine location number, and a sequential ticket number. This data is printed in both man-readable and barcode machine-readable format utilizing a non-contact thermal printer technology.
